

My dear fellow citizens of Arunachal Pradesh,

As you are aware, the population census is undertaken once in a decade and census operations are considered the biggest administrative exercise in India. The first phase of Census 2011 has been successfully completed in Arunachal Pradesh with full cooperation of the State Government.

The Second Phase census 2011, i.e Population Enumeration is to be conducted in the state from 9th to 28th February 2011 with a revisional round from 1st to 5th March 2011. It is needless to mention that this gigantic exercise can be successful only if all the people of the state render their full cooperation by providing accurate information.

The exercise requires the services of large number of Administrative Officers, teachers and other Government servants. It is therefore necessary to ensure that Population Enumeration covers the entire population of the state and considering the utility of census data in planning and various welfare schemes, individual particulars are to be recorded correctly.

I am confident that appointed Census Officers, Supervisors and Enumerators will take up the work in right earnest under the guidance of the Directorate of Census Operations and the Directorate of Economics & Statistics (Nodal Agency) to make Population Enumeration of Census 2011 a complete success in Arunachal Pradesh.

8/02/11
(Dorjee Khandu)
